

Founded in 1978, **FSQ** is a Taiwanese manufacturer of high quality bearing housings, adapters & power transmission components. They are a division of large industrial conglomerate established in 1959 that is a

leading manufacturer of CNC Machine Tools, PC Boards, Elevators, Car Parking Systems, Fork-lift Trucks, Pneumatic Tools, and Spray Guns. In 1988 they established a joint-venture with SKF Mekan AB of Sweden, the largest bearing housings manufacturer in the world. FSQ is ISO 9001 & QS9000 Certified.

**FSQ** Stands for Excellence and Reliability. With consistent endeavor to maintain the highest quality products and services, FSQ gives a concept of a quality product that does not need to expensive. Standard Split Housings are constructed of grey cast iron, while ductile iron and steel construction is available, if higher strength is needed.

**Bearings Limited** is a factory-direct authorized distributor of FSQ components. The below series are stocked and available for immediate shipment

#### Housings

- SAF
- SN
- FSAF
- SDAF
- SD
- SNL

#### Adapters & Sleeves

- H200
- H300
- AHX
- AOH

#### Accessories

- LER rings
- KM
- MB
