

# Product Highlights

## FREE SPINNING BEARING INSERTS

Free Spinning Bearing inserts are ideal for high speed applications where low drag and low starting torque are desired.

This unique design incorporates non-contact steel slinger shields, riveted steel cages, and light oil (K ) or light grease (KG variation) lubrication to provide maximum performance. Units are Black Oxide finished for increased corrosion resistance in harsh environments.

Popular applications include:

- Packaging
- Printing Machinery
- Conveyor Systems
- Recreational & Racing Vehicles
